

Recipients :	HALE Nord Bohemia, s.r.o.
Release date :	2.8.2022
Update Purpose :	
Object :	Connekt, revision H

As of July 2022, week 28, the After Market version of the Connekt produced in Orebro is the Revision H, reference **900588RH**. It will also be used at SCANIA, MAN & DAF Production facilities, but not by DAIMLER.

Connekt Revision H

Reason for change: New tamper label in the printer drawer due to obsolescence.

SOP for AM variant 35 and 36: July 2022, Week 28.

Software version: PABF, same as Rev. G, no new functionalities. For details on the PABF SW additions please go to <https://www.se5000.com/product-support/>.

Optimo SW version 6.4 is required to configure this new revision with the SE5000CS Application.

New RH tamper label:

Previous RA-RG tamper label:
